Are You an Organ Donor?

Today, more than 3,700 patients listed at Florida transplant centers await life-saving organ transplants. Many of these individuals may get a second chance at life due to the generosity of those who designate themselves as organ, tissue and eye donors on Florida's organ and tissue donor Registry.

The Joshua Abbott Organ and Tissue Donor Registry was created in 2009 to allow Floridians an easy, user-friendly means of joining the state's Registry. Floridians can join the Registry through this Website, when renewing their driver license online, or when obtaining/renewing their license at a local driver license office.

If you already have "organ donor" on your driver license, you still are encouraged to join the new registry to ensure your previous designation is documented.

You have the power to Donate Life! [Sign up today](#) to become an organ, tissue and eye donor.

MY LIVING WILL

Last night my sister and I were sitting in the den and I said to her, 'I never want to live in a vegetative state, dependent on some machine and fluids from a bottle to keep me alive. That would be no quality of life at all, If that ever happens, just pull the plug.'

So she got up, unplugged the computer, and threw out my wine.
